## FOR IMMEDIATE RELEASE

I-Engineering, Inc. is pleased to announce that it has been selected by Axiom Insurance Managers of Rolling Meadow, IL to design and build a web-based underwriting portal. This Portal will allow Axiom's producers to easily and efficiently rate, quote, bind insurance products in a more timely and convenient manner.

## **Axiom**

"We are pleased today to award the contract for this important technological tool to I-Engineering, an industry leader in providing a tech savvy solutions to MGUs, and we are happy to have them as a partner as we advance the spectrum of services that we are able to offer our clients across the country," said Dan Djordjevic, President & CEO of Axiom Insurance Managers.

"I-Engineering is pleased to have Axiom Insurance Managers as a new business partner. This organization lead by Dan Djordjevic and his team serve their agents and producers with best in class services, great products and a state-of-the-art system. We are pleased to have been selected to build Axiom a cutting edge web based portal to enhance their services to carriers and their agents throughout the country," said Naval Kapoor, President & CEO of I-Engineering.

I-Engineering and Axiom teams have already started planning and designing the new web portal, which will be made available to Axiom clients in September 2010.

### **About Axiom**

Axiom Insurance Managers specializes on working in a MGA capacity with insurance brokers and affinity groups to provide best in class solutions. They are a premier aggregator of “best in class” insurance and related services to the marketplace. Their role is to serve as the underwriter or exclusive program developer and/or distributor for the insurance brokerage marketplace.

### **About I-Engineering**

I-Engineering, Inc. a pioneer in developing and marketing integrated software solutions provides Paperless Insurance Environment (PIE™) to the wholesale brokers, MGAS and carriers.

The Company has developed and is currently marketing a suite (iNet-Suite) of unique “web-based” systems to serve the insurance industry. The features and functionalities of these systems provide complete automation, process management and customized workflows serving the MGA’s, Wholesalers and Insurance Carrier Markets.

I-Engineering is also proud members of many P&C Insurance organizations including Target Markets, NAPSLO and AAMGA.
